DIARY NOTES

DD/S [REDACTED]

5 July 1960

25X1A9a

1. On Sunday I was advised that [REDACTED] had suffered a serious heart attack early Saturday morning. Checks with the family and Doctor Tietjen confirmed that he would probably be in the hospital at least four to six weeks and unable to consider returning to work for at least that much longer.

2. I met with Jim Garrison and [REDACTED] to discuss the General Services Administration's request that we pay \$50,000 to move the [REDACTED] (On 25X1A6a 6 July I met with Jim, Bob and Frank Ecker, Bureau of the Budget, to discuss this matter and also to lay out before the Bureau our proposal to have the Technical Services Division move [REDACTED] eventually. This would entail the withdrawal of approximately \$2,000,000 from the Reserve rather than \$1,000,000 which it was originally anticipated would take care of the Photographic Intelligence Center alone. With regard to the \$50,000 Frank telephoned me later in the day to say that GSA had an appropriation for Fiscal Year 1961 in the amount of \$165,000,000 specifically for such purposes; therefore, the Bureau would not entertain a request for \$50,000 based on a money shortage. If there is some substantive principle which GSA is standing on then the Bureau will be willing to listen to their argument. I have passed this information on to Jim and Bob.)

3. I reviewed with [REDACTED] the DD/S Fiscal Year 1961 Operating Budget and decided that this should not be presented to the Project Review Committee until the Deputy Director (Plans) submitted his information at which time it could be submitted as a package.

25X1A9a

4. I talked with [REDACTED] about his departure date and he anticipated that he would be leaving in two or three weeks. I asked him to assume the position of Acting Chief of the Management Staff for the time being.
